The "Toric" lens is ground with a
deep, inner curve, which permits of
the lens being placed much closer to
the eye, allowing a wider range of
vision with no perceptible edges or
annoying reflections. The "Toric"
lens is for particular people who want
the best and are satisfied with nothing
less. It costs a little more, but
it is worth it. We fit the "Toric"
in eye-glass or spectacle.

should make them earn their
